

10.03.2023

Are you ready to begin or advance your forestry career with a nationwide leader in forest management and timberland marketing? Then, we want to talk to you.

As a provider of inventory services across the northeastern US, LandVest has an opportunity for an energetic and organized forester looking for a management position in a leading-edge organization. The position of Forest Project Manager requires an experienced forester who understands the importance of planning and executing management, inventory, and consulting projects with a high level of quality and consistency. The Forest Project Manager will work with our Technical Services Group and Division Managers to procure, plan and implement a broad range of forest management, inventory, and consulting projects. The position will report out of our Bangor, ME office with administrative support available from this location and across the Maine region. Occasional multi-night travel will also be necessary for regional and division-wide projects.

Responsibilities & Duties:

- Lead multiple concurrent forest management, inventory, and consulting projects with a focus on inventory projects across Maine.
- Assemble the required LandVest and contract cruiser labor, training, cruising, check cruising, project management and data management.
- On the ground oversight of inventories while in motion.
- Work with other management staff to develop inventory summaries and coordinate reporting with the Division Managers.
- Communicate the concepts of forest mensuration to other forestry professionals and clients.
- Communicate with clients to facilitate, plan, design and deliver inventory and analytical results.
- Other duties as assigned.
- At a minimum a BS in Forestry or similar from an SAF accredited program. Demonstrating any advanced degrees or continuing education that would be considered pertinent to this position is of course valuable.
- At least 2 years in a position focused on the planning and implementation of forest inventories. In addition, successful candidates would ideally demonstrate field forestry experience related to other aspects of forest management. LandVest consistently looks for well-rounded professionals to build more collaborative teams of experienced personnel.
- Maine Forester's License or ability to acquire license on short timeline.
- Knowledge of forest mensuration and comfort with the tools of forest inventory and the underlying concepts, including angle gauges, clinometer, digital hypsometer and other current technologies.
- Confidence in basic skills needed for forest inventory, such as tree and plant identification and navigation both with compass and GPS.
- Proficiency in teaching and guiding other natural resource professionals in learning and improving forest inventory techniques.
- Ability to independently manage multiple concurrent projects.

- Familiarity with Microsoft Office, database and forest inventory software applications
- Experience with data management, quality control & assurance
- Understanding of descriptive statistics in an applied forestry setting. Ability to communicate applied statistical concepts and results to a broad audience.
- Excellent written and oral communication
- Patience and attention to detail are essential to this position.
- Experience and thoughtfulness in a leadership and supervisory role
- Ability to problem solve.
- Demonstrating a collaborative and cooperative demeanor and attitude, with the ability to work with a broad variety of internal staff and external clients and colleagues.
- Reliable and woods-ready 4WD vehicle.

Desired:

- Basic comfort level with geographic information software (Arc)
- Understanding and familiarity with growth modeling software (USDA FVS)
- Knowledge of the USDA Forest Service's Forest Inventory and Analysis program, with an understanding of the field methods
- Basic SQL skills

LandVest will provide:

- A stable organization celebrating 55 years in business.
- A positive work environment.
- Training, the opportunity to build upon your education and hone your forestry skills.
- Competitive salary & paid time off.
- 401k Retirement Plan with company match.
- Healthcare, dental, vision, life insurance and disability plans.
- Eligible for annual and new business bonus plans.
- Expense reimbursement, fixed & variable truck reimbursement, down payment assistance.
- Continuing education.
- Advancement opportunities.
